

**FOR IMMEDIATE RELEASE**

**Little Big Tots Foundation Selected as Ohana Fuels' 1st Quarter "Fuel Up. Do Good." Recipient**

**Hilo, Hawai'i — December 7, 2025** — Little Big Tots Foundation is honored to announce that we have been selected as the next Ohana Fuels' "Fuel Up. Do Good." program recipient. Through this community-focused initiative, a portion of all gasoline sales at Hawai'i Island Ohana Fuels locations between January 1 and March 31 2026 will directly support Little Big Tots Foundation's mission to expand opportunities for Hawai'i's youth.

Little Big Tots Foundation is dedicated to providing financial assistance to Hawai'i's children ages 3 to 16 by offering awards covering registration fees for a wide range of extra-curricular activities. These opportunities—whether in sports, arts, culture, or other enrichment programs—play a critical role in a child's growth.

"Extra-curricular participation in Hawai'i has been declining rapidly," the organization states. "Many families living in poverty simply cannot afford the cost of registration fees, which often prevents children from exploring activities that help shape their confidence, social skills, and sense of belonging." By removing financial barriers, the foundation ensures that more children gain access to meaningful experiences that support the social component—often nurtured through extra-curricular activities which is vital in building future community leaders.

"We are deeply grateful to Ohana Fuels for recognizing the importance of our work," said Kristina Tolentino, President. "This partnership empowers us to continue investing in Hawai'i's youth and giving every child the chance to thrive."

Kimo Haynes, President of Hawai'i Petroleum added, "We are pleased to honor Little Big Tots with this award. We appreciate the invaluable work that they do in support of keiki in our community."
